DETAILED ACTION

Response to Arguments

Applicant's arguments filed 02/25/2011 have been fully considered but they are not persuasive.

On pages 5-6, Applicant argues that, "it appears that the Examiner regards SULL et al.'s "bookmark data" or "metadata" as being equivalent to Applicant's "data related to the data broadcasting" or "the updated data related to the data broadcasting" recited in Applicant's claims 9 and 24. However, Applicant submits that SULL et al.'s "bookmark data" or "metadata" is not data that is used when the data broadcasting is received or the data that is generated and updated when the data broadcasting is received, as described at, for example, page 29, lines 23-25 of Applicant's filed specification. Thus, Applicant submits that the teaching of SULL et al. differs from the currently claimed invention."

In response, Examiner respectfully submits that the claim does not require the data related to the data broadcasting to be the data that is used or the data that is generated and updated at the time the data broadcasting is received. As such, the "bookmark data" or "metadata" in Sull read on the claimed limitations even with the assumption that such "bookmark data" or the "metadata" are not used or received at the same time the broadcasting data is received, which Examiner does not admit.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hung Q. Dang whose telephone number is (571)270-1116. The examiner can normally be reached on IFT.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, THAI Q. TRAN can be reached on 571-272-7382. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
